ABOUT MYSELF

Mechanical Engineering graduate from CUET, currently a Trainee Assistant Engineer at KSRM Steel Plant, focusing on maintenance and operation of heavy machinery. Skilled in equipment reliability enhancement, design and simulation tools (SolidWorks, ANSYS, AutoCAD, CFD), team leadership, and problem-solving in engineering. Aspires to pursue a Master's degree for career advancement.

EDUCATION & TRAINING

B.Sc. in Mechanical Engineering

Chittagong University Of Engineering And Technology [06/01/2019 - 16/07/2025]

City: Chittagong | **Country:** Bangladesh

Website: www.cuet.ac.bd | **Final grade:** 3.60 | **Number of credits:** 161.50 | **Thesis:** Design and Optimization of Savonius Wind Turbine using CFD Simulation

Merit Position: 29th out of 180 (Top 15%)

WORK EXPERIENCE

Kabir Steel Re-Rolling Mills Ltd. - Bangladesh, Bara kumira, Sitakunda, Chattogram

Trainee Assistant Engineer (Mechanical Maintenance Department)

[10/12/2025 - Current]

- Reduced downtime by implementing prompt diagnosis, conducting preventive maintenance, and managing mechanical maintenance as Shift In-Charge. Operated key equipment such as Induction Furnace, LRF, APC systems, WTP, and EOT Cranes, while also designing and fabricating spare parts to decrease dependency on external suppliers.

Baraka Shikalbaha Power Limited - Bangladesh, Chattogram

Industrial Training

[23/02/2025 - 13/03/2025]

- I gained insight into large-scale steel manufacturing, mechanical systems, automation, quality control, materials handling, and equipment maintenance.

CUET IICT under the ICT division of Bangladesh - Bangladesh, Chattogram

CNC Programming and 3D Printing

[10/05/2024 - 25/10/2024]

- I gained practical skills in CNC operations, coding, and 3D printing for digital fabrication and precision engineering.

RESEARCH EXPERIENCE

[01/03/2024 - 16/07/2025]

Design and Optimization of Savonius Wind Turbine using CFD Simulation

- Designed and optimized a Savonius wind turbine using CFD simulations, identifying 130° blade angle as optimal for peak power and aerodynamic efficiency in low-wind conditions.

PROJECTS

[11/03/2025 - 09/07/2025]

- **Composite Leaf Spring for Light Vehicle Application:** Fabricated GFRP composites & performed impact, hardness and shear test following ASTM standards for comparative analysis.

RESEARCH INTEREST

Renewable Energy | Automation | Additive Manufacturing | Sustainable Manufacturing | Composite Materials.

SOFTWARE SKILLS

Design & Simulation : SolidWorks, AutoCAD, ANSYS, MATLAB, CFD Simulation

Manufacturing & Programming : CNC Coding, 3D Printing, C Programming, Fortran

Productivity Tools : Microsoft Office (Word, Excel, PowerPoint)

CERTIFICATIONS

[Office of Physical Education, CUET, 30/11/2025]
Certificate of Sports Participation and Athletic Achievement
